ROM/Strength Changes	
Other: _____	

Patient Name: _____ ID # _____

Gait Deviations/Gait Pattern:

_____ Normal _____ L/R Antalgic Gait _____ Cautious/Guarded
 Gait
 _____ L/R Foot Drop _____ L/R Decreased Stride _____ Wide/Narrow
 BOS
 _____ Hemiparetic Gait _____ Shuffling Gait _____ Festinating/Spastic
 Gait _____ Ataxic Gait _____ Scissoring _____ L/R Knee
 Hyperextension _____ Forward Flexed Trunk Other: _____

Treatments Provided (please include details/specific treatments for all chosen to demonstrate therapist skill; may include techniques, types and amount of cueing, etc.):

_____ **Therapeutic Exercise**

_____ **Transfer Training (include AD and instructions provided)**

_____ **Home Exercise Program (send a copy for the EMR)**

_____ **Gait Training (include AD and instructions provided)**

_____ **Chest PT/Cardiopulmonary Training**

_____ **Balance Training**

_____ **Prosthetic Training**

_____ **Pain Management:**

_____ **Falls Prevention:**

Patient Name: _____ ID # _____

Education: Instructed patient/caregiver in (please describe in detail to demonstrate skill):

_____ **Safety:** _____

_____ **Home**

Hazards: _____

_____ **Activity**

Precautions: _____

_____ **Cardiac**

Precautions: _____

_____ **WB**

Precuations: _____

_____ **Energy Conservation**

Techniques: _____

_____ **Use of Assistive**

Device/s: _____

____ Pain
Management: _____

____ HEP: _____

____ HEP left in home: ____ Yes ____ No

____ Other: _____

Response to Instructions:

____ Verbalized Understanding and Agreed to Comply

____ Needs Continued Instructional Training

____ Other: _____

Assessment:

Patient progressing with:

____ Bed mobility

____ Transfers

____ Ambulation (W/C mobility)

____ Stairs

____ ADLs

Goals: ____ Continue ____ Achieved ____ Changed/Upgraded
to: _____

Patient Name: _____ ID # _____

Comments (Please document skill if not specified elsewhere):

Plan: _____ Continue Current Tx Plan _____ Additional
